Company certified for its quality in:
Production, assembly and application
of industrial paint on sheet metal parts.

Model Metal

Manufacture of **metal parts**

Laser cutting

Punching

Folding

Welding

Insertion of fixings

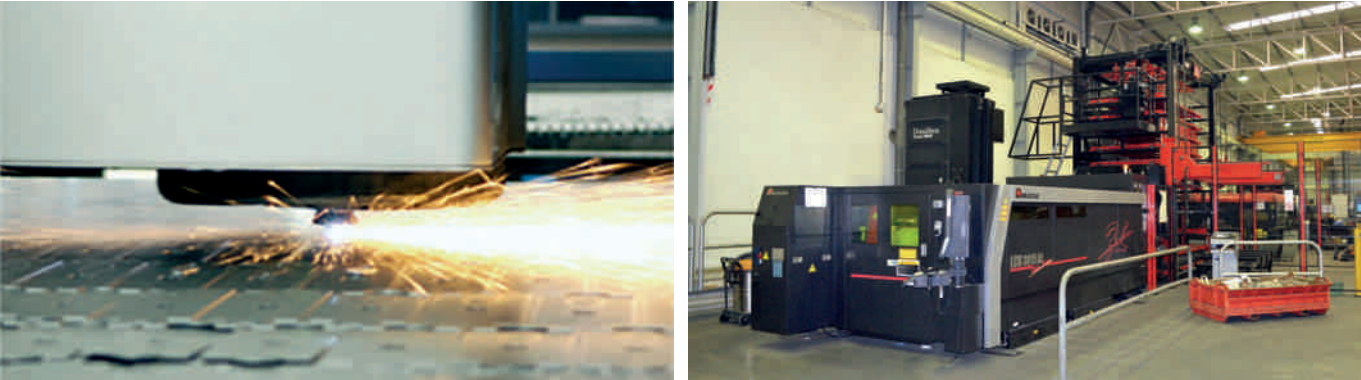

Epoxy painting

Injected polyurethane weatherstripping

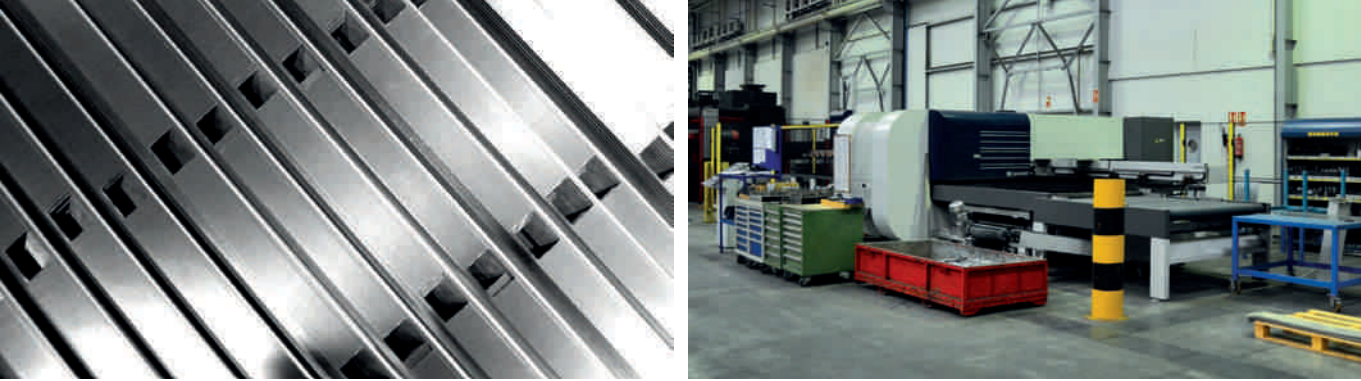

Industrial assemblies

PROCESSES

1. Laser cutting sheet metal

2. Punching sheet metal with a punching machine

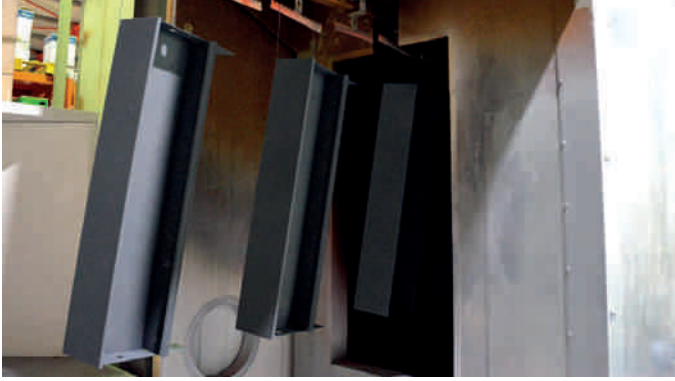

3. Folding metal parts

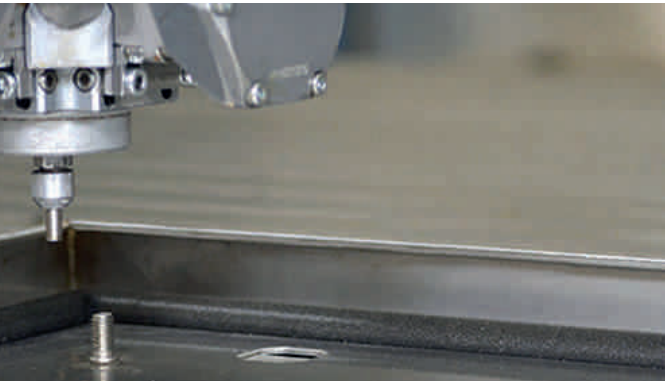

4. Welding and polishing metal parts

5. Painting metal parts with epoxy paint

6. Injecting polyurethane foam weatherstrip in doors and parts

7. Assembling sets of metal parts

8. Packing and transporting our products

PRODUCTS

Manufacture of cabinets for semitrailers

Electrical cabinets for industry and charging in the electric vehicle sector

Metal parts with industrial design from plan

Curved parts and moulds for injection of transformer coil cores
